## BOND BUYERS BID HIGH FOR ADA BONDS

### FOUR KILLED IN CHICAGO STREET BATTLES TODAY

More Arrests and Indictments Expected Soon in Chicago Labor War.

### THREE CONFESSIONS

Officers Report Damaging Evidence Against Murphy, Mader and Shea.

(By the Associated Press)  
CHICAGO, May 13.—While police were rushing legal action against leaders charged with placing Chicago "in a state of warfare, thru acts of crime," cracking of pistols and booming of shot guns boomed out again today in various parts of the city and at noon four persons were dead and three others injured as a result of two assassinations and several fights between police and bandits.

Obeys Chief Fitzmorris' orders to shoot on the slightest provocation, two of his patrolmen early today killed two bandits, wounded a third and accidentally wounded a bystander. One policeman was wounded in the fight, while the other two deaths came when unknown assassins entered an Italian barber shop and without warning opened fire with shotguns.

Net Closing Around Suspects.  
CHICAGO, May 13.—The police net about the figures in the recent series of bombings and beatings which culminated Wednesday in the killing of two policemen, tightened perceptibly today, authorities said, with the obtaining of partial confessions from three of the approximately 150 labor men under arrest and the arrest of three more, one in St. Louis, Mo. Discovery of the identity of the slayers was imminent, police said, as the relentless drive against those responsible for recent disorders was continued.

Additional indictments and arrests were to be expected, the authorities said, eight men already being under murder indictment and are being held without bail. Included were "Big Tim" Murphy, head of the gas workers union, Fred Mader, president of the Builders Trade council and Con Shea, of the theatre janitors union. The confessions obtained, it is understood, deal with the recent operations of these three. Two of the men said to have confessed are Isador Breverman, of the fixture hangers union, and Robert McCloud indicted with Murphy, Mader and Shea, and Harry (Smash) Hanson. Hanson appeared with counsel in superior court and made a request that he be kept in custody and not released on a writ of habeas corpus, which friends are trying to obtain.

Sensational developments are expected to be made within the next 48 hours, it was indicated after a conference of police heads, assistant states attorney and leaders of various civic organizations interested in doing away in Chicago of what is termed "gang rule," war between police and labor and terrorists plots. "We are extremely gratified with the development of the situation in the last 24 hours," said Charles C. Fitzmorris, chief of police.

### INFORMATION ON PROPOSED STEEL MERGER ASKED FOR

(By the Associated Press)  
WASHINGTON, May 13.—Presidents of more than half a dozen independent steel companies mentioned in connection with the reported proposed merger were called upon today by the federal trades commission for "full and specific information as to the plans of the proposed merger before the plan is consummated or actual transfer made."

The commission request, made after receipt of Senator LaFollette's resolution adopted yesterday by the senate, to the presidents of the Midvale Steel and Ordnance company, Inland Steel company, Youngstown Sheet and Tube company, Steel and Tube company of America, Byrd Hill Steel company and Bethlehem Steel corporation.

Announcement was made in connection with the request that the commission had its attention called to the proposed merger last December 27, and since that time it has had the question under investigation.

Mr. Clifford M. Dorsey of the United Light and Power Co., has

### BRENTS SAYS BOOZE BUSINESS IN STATE IS FALLING OFF

T. E. Brents, federal prohibition enforcement officer, is of the opinion that conditions in the booze line are improving in Oklahoma, especially in the central part of the state. His force, consisting of 10 men, is capturing about one wild cat still per day. Mr. Brents is of the opinion that conditions are not nearly so bad as painted, anyway. Since the crop season has come around there has been less wildcatting among farmers, he says, and the dangerous character of much of the stuff that has been sold has caused a marked decrease in the demand. It is too dangerous to take chances with.

Mr. Brents says his department makes all possible effort to co-operate with local officers and this is helping, the local men as a rule being ready to work with the federal officers.

### GENOA PARLEY NEAR A BREAK

Conference Faces Serious Crisis. French Out of Russian Discussion.

(By the Associated Press)  
GENOA, May 13.—As a result of the meeting of the economic conference sub-committee on Russian affairs today the situation became so critical that it seemed doubtful whether the British and French possibly could be reconciled.

After the adjournment of the meeting which was taken at 1:15 until five o'clock, the British delegation announced that a "serious though friendly" discussion had occurred.

Prime Minister Lloyd George, on opening the discussion, characterized the Russian reply as typical of soviet diplomacy which he said, always introduced such arguments at a time when the people were really ready to do business. He thought, however, that in substance the note shows the Russian delegation wishes to come to some arrangement if possible.

Everybody, Mr. Lloyd George remarked, had their difficulty with public opinion at home and it was not right for the other statesmen to criticize the soviet representatives too severely. He said he thought the breaking up of the conference because of the Russian document would be serious for Europe and Asia.

M. Barthou for France, said that five weeks of consideration of the Russian questions at Genoa had been without result and it was unlikely that further consideration of them by a commission named by the Genoa conference would be useful. He suggested it would be better to have allied powers with neutrals and probably the United States, named an investigating committee without Russia, who had shown clearly that they would only take up time of such a commission with propaganda.

This conflict of opinion gave rise to serious doubt as to whether two positions were susceptible to reconciliation.

French Will Ignore Russians.  
PARIS, May 13.—The French delegation remained at Genoa to take part in the discussion of other questions before the conference, although it will have nothing more to do with any discussion with the Russians, it was said at the foreign office here this morning. As far as the Russian problem was concerned, the conference is considered by the French government at an end.

### RECOGNITION FOR HIGH SCHOOLS OF PONTOTOC COUNTY

Supt. Floyd is highly gratified with the record of the new high schools in Pontotoc county. During the past year these have been given from one to three years credit by the state. The university now credits Pithugh with 12 units, Vannoss 11 1-2, Latta 6 1-2, Oakman 6 1-2, Frisco 6 1-2, Lula 10. Next year others will be added to the list. Patrons are recognizing more than ever before the necessity of more extended courses in the home schools and are taking steps in several districts to meet the requirements for high school work and give their children better educational advantages at home. Until recently there were no recognized high schools in the county outside the five independent districts.

The barn, or screech owl never

### CASES AGAINST WAR GRAFTERS TO BE PUSHED

Daugherty Says Many Millions Involved in Fraud Cases Is Sought.

### ASK APPROPRIATION

Justice Department Needs More Help in Prosecuting Cases to Limit of Law.

(By the Associated Press)  
WASHINGTON, May 13.—The amount the government will receive from all war fraud cases "will be many times the amount needed to carry out their prosecution," the house appropriations committee declared today in reporting a bill carrying \$500,000 for use by the department of justice as a special investigating and prosecution fund.

Expressing the need of money to hire more assistants Attorney General Daugherty told the commission, as revealed by printed hearings made public today, that about 275 cases from a few thousand to several million dollars were pending and that the total amount would aggregate about \$192,000,000.

Urging the early passage of the bill so that the department of justice might be adequately equipped "for successful disposition of the cases" the committee declared those who had defrauded the government during the war should be prosecuted to the limit with all the vigor the government could command, while persons upon whom unjust suspicion might rest were entitled to know promptly that such suspicion was not justified.

### TWO ITALIANS KILLED IN CHICAGO BARBER SHOP

CHICAGO, May 13.—Vito Giorgio and James Casio, both of New Orleans, La., were shot to death in an Italian barbershop today by two unknown assassins, who entered the shop and suddenly started shooting with shotguns without warning.

The two victims are believed to be traveling men, each appeared to be about 30 years old, and on Giorgio was a letter to his wife which read: "Dear Mary: 'I'll be home soon. Everything is alright; bringing Jimmy with me. Vito.'"

### Stillwater Sheriff Takes No Chances At Gordon Trial

STILLWATER, May 13.—When the preliminary hearing of Earl E. Gordon, government student at Oklahoma A. and M. college, who is charged with murder in connection with the shooting to death of Beckham Cobb, another student, began in district court here today, armed deputies were stationed about the court room to prevent any possible demonstration. Sheriff O. R. Lilley announced last night that he was taking this precaution because he had "information that something unseemingly was possible."

### HARDING IS VERY OPTIMISTIC

Administration Is Working Hard for Better Understanding, Pres. Says.

(By the Associated Press)  
ABSECON, N. J., May 13.—President and Mrs. Harding today were enjoying the week-end at Seaview Golf and Country club near here, after their automobile trip from Washington yesterday and the president's appearance at the dinner given by the women's republican clubs of New Jersey, and the bankers convention at Atlantic City last night. Almost perfect weather was promised.

Secretary and Mrs. Weeks and Attorney General Daugherty have arrived and complete the official party, of which Senator Edge of New Jersey, is host. New Jersey children gave the president a hearty welcome at every town and city traversed by the party from the time it crossed the Delaware river at Wilmington. At some points mounted police intervened, allowing Mr. Harding's automobile to pass along readily.

Republican leaders were interested in the address by the president at the women's club dinner. His expression of friendship for the state's two senators Edge and Frelinghuysen. I cannot always beat them at golf, but I know where to find them when their are difficult problems to achieve.

"I hope," he added, "you people think as much of them as the executive in Washington does."

Mr. Harding said the administration had worked to bring about greater understanding in the world and new security for America.

Notice to Public.  
Complaint has been made to the chief of police that boys in the city are causing quite a bit of trouble with sling shots or "nigger shooters." This must stop inside the city limits where it is likely to be a menace to persons or property. It is a violation of the ordinances of the city of Ada, and all violations will be subject to the penalty prescribed.—Wick Adair, chief of police.  
5-13-1t

### INTRODUCING 1922 Graduate OF ADA HIGH

Bess Knighten.  
Miss Bess Knighten, daughter of Mr. and Mrs. J. T. Knighten, a student of the Ada High school, will be a member of the graduating class when they received their diplomas next Friday evening. Although she has attended the local school only one year, she is a very popular member and is well known among the student body.

Miss Knighten came to the Ada school from Norman high school. She plans to return to that place after graduation to enroll in the University of Oklahoma where she will continue her educational work. She is a member of the high school athletic association.

Elizabeth Myers.  
Miss Elizabeth Myers, daughter of N. P. Myers of the Criswell-Myers undertaking firm, will graduate at Ada high school next Friday. She has been a student here only one year.

Miss Myers is planning to enroll in East Central college next year to continue her educational work. She has not as yet picked a vocation. In addition to being a member of the athletic association, musical organizations and other school bodies, she is to participate in the senior class play next Tuesday evening. Her short time in the local school has placed her high in favor of the student body.

Etta Mae Qualls.  
Miss Etta Mae Qualls, daughter of C. E. Qualls, of 301 North Rennie Avenue, will receive her diploma along with 40 other senior class students of the Ada high school next Friday evening at commencement exercises.

She has been a student at the local school for four years, and is completing a full four years course of study. Miss Qualls is planning to prepare herself for bookkeeping and will attend Hills Business College at Oklahoma City to this purpose.

Mrs. Ed Bennett has returned home after a month's stay in Virginia where her parents are very ill.

Rev. H. M. Wood left for Coal-gate today where he will preach the baccalaureate sermon for the high school there tomorrow.

Try a News Want Ad for results.

### SERMON FOR H. S. GRADS SUNDAY

Baccalaureate Service to Be Held at McSwain in Evening.

Baccalaureate exercises for the graduating class of the Ada high school will be held at the McSwain Theatre Sunday afternoon, beginning at eight o'clock. The baccalaureate sermon will be preached by Rev. J. H. Ball, pastor of the First Methodist church of this city.

There are fifty members of the class this year, the largest in history. A very interesting program has been prepared for the exercises tomorrow and an invitation has been extended to the patrons of the school, friends of the graduates and citizens of Ada to attend.

The program will open with the procession by Miss Willetta Kittell followed by the doxology by the audience. Rev. T. L. Taylor will lead in prayer. Fourth on the program will be a number of the high school chorus, followed by a scripture lesson by Rev. E. O. Whitwell. High school male quartet will sing "Whispering Hope" just preceding the baccalaureate sermon. Then will come the announcements with the coronation by the audience and benediction by Rev. H. M. Woods closing the services.

Prof. A. L. Fenem stated today that all plans for the closing week of school have been completed. Tomorrow's program will be the second of a series of many events for the students, the last of which will be the "beginning of the end."

This latter program will be held Friday evening at the First Methodist church with Rev. H. M. Woods delivering the commencement address to the students and their parents and friends. It will open with the procession by Miss Kittell, followed by an invocation by Rev. J. H. Ball. Musical numbers will consist of a number by the high school orchestra, one by the senior class glee club, another by the high school male quartet and one by the high school girls chorus. Presentation of diplomas, president of the board of education, will follow the commencement address. Closing the program, Miss Kittell will play the Recessional.

W. H. Desmond and family returned last night from Oklahoma City where they were called last week by the serious illness of his mother.

### 5 1-4 SERIAL BOND IS CONDITIONALLY ACCEPTED BY CITY

Taylor-White Company and G. L. Gilbert the Successful Bidders

### MEMORIAL PROJECT

City Commissioners to Give 30 Days for Voters to Make Decision

That bonds on the city of Ada are in great demand was indicated by the fact that nine bond buyers were here Friday afternoon to bid on the \$110,000 proposed issue. That finally accepted was 5 1-4 percent bond, retiring annually after the first five years. The successful bidder was the Taylor-White Company of Oklahoma City together with G. L. Gilbert of the same place. The bid was par with accrued interest. The trade is conditional upon the outcome of an election to be called.

The commissioners met at 2:30 in the auditorium of the city hall and first asked for bids on 6 percent, straight twenty-five year bonds. The high bid for this was a premium of \$8,150. The commissioners figured that the city would profit by selling the lower percentage bond at par than by selling the higher percentage bond at a premium. In other words, it will cost the city less.

The bond buyers stated that they had never seen anything to equal the bidding. The bids, they stated, were considerably above the market. The city commissioners believe this is an exceptionally good record. There is nothing in the way now of calling the election. This will be done within a short time, and the election set for not less than thirty days.

The high bids and bidders on the various bonds offered were as follows:

Five and one-half percent straight twenty-five year bonds, G. L. Gilbert of Oklahoma City, \$2900 premium. Six percent straight twenty-five year bonds, John A. Askew of Kansas City, \$8,150 premium.

Five and one-half percent serial, retiring annually after the first five years, Taylor-White Co., of Oklahoma City, \$1750 premium.

Five and one-fourth straight twenty-five year bonds, Taylor-White Co. of Oklahoma City, \$450 premium.

Five and one-half percent serial, retiring annually after the first five years, G. L. Gilbert and Taylor-White Co. of Oklahoma City jointly, \$1300 premium.

The last bid was accepted as the best, and a certified check for \$2,200 was deposited in an Ada bank to show the good faith.

### KENTUCKY DERBY ATTRACTS MANY RACE FANS TODAY

(By the Associated Press)

LOUISVILLE, Ky., May 13.—Eleven thoroughbreds, aristocrats of the American turf, are carded to face the break at Church Downs today in the 45th renewal of the Kentucky derby.

In the memory of those who have won honors during the last half century, no year has before had a more complete list of outstanding prominent.

Benjamin Block's Morrick and the E. R. Bradley entry, loomed strongest when scurrying crowds gave promise of a fast track. Death Lock of My Play also ranked high in the prognostications of those who expected to see the race.

Tests at high speed by practically every candidate put finishing touches to the track yesterday and today every entrant, perhaps with the exception of Busy American, ace of the Bradley stables, stood ready to enter the final call.

The more than 70,000 persons who witnessed the race here this afternoon awoke this morning to find the sky cloudless and early sunshine promised summer heat, a light fast track is assured, barring sudden weather changes.

The barrier will be snapped some time between 5 and 5:15. The derby is the fourth race in the card.

Walter Wray of the Dodge Motor Company, has returned after spending a short time in Ardmore on business.

**BIBLE THOUGHT OF TODAY**  
**WARNING TO MEDDLERS:**—He that passeth by, and meddleth with strife belonging not to him, is like one that taketh a dog by the ears.—Proverbs 26:17.

**SAVING WHAT IS LEFT.**  
 Senator Fall is eminently correct in his statement that the national resources should be conserved and the income derived from them used in meeting some of the expenditures of the government. In earlier days Uncle Sam scattered with a prodigal hand with no thought of a possible rainy day. His resources appeared to be without limit and he dissipated them accordingly. When most of his estate had been gobbled up he awoke to the necessity of conservation and tried to lock the stable, even though most of the horses had already been stolen. Ever since that policy was adopted big interests have tried every means of picking the lock on the treasure house and getting what is left. Fall speaks a whole volume when he says Uncle Sam must husband his resources.

Dean Walter Williams was eminently correct when in his address to Oklahoma newspaper men at Ponca City he stated that nothing will discredit a paper as quickly as errors in statements found in its columns. Every reputable paper wants to get at the bottom of the facts before publishing anything and will not knowingly permit an erroneous statement to appear, but even after exhausting every means of ascertaining facts an error will creep in occasionally. The average person has no conception of the trouble a reporter takes to verify the truth of what he writes. It is the ambition of the reputable editor to have his paper regarded by the the public as dependable and he goes the limit to make it worthy of such confidence. Some fellow has observed that a lawyer can lay his mistakes on the court and the doctor buries his mistakes, but those of the editor are right there in black and white and can't be dodged.

One man who has often opposed progressive moves is reported to be in favor of paving his street and also in favor of the Memorial Hall. It is said he has reached this conclusion: If Ada does not go forward, the property that is now here will deteriorate in value. The upbuilding of the city depends upon progress such as paving and building a hall in which conventions can be held. Thus he believes that as a matter of pure selfishness he can no longer oppose progressive movements. That is not bad reasoning. After all, if every one will think entirely through a proposition and then vote what he knows to be to his own best interest, a city is not likely to make mistakes. For progress means greater and more opportunities for all.

Henry Ford's paper is inclined to take with a grain of salt the stories of improving conditions in Mexico. The paper scents a Wall Street plot to unload a lot of Mexican securities on the unsuspecting public, hence the propaganda about the improving conditions. The fact that Villa has come out of retirement and announced his candidacy for governor of a Mexican state is none too reassuring. If he is beaten it is likely that he will follow the usual custom prevailing in Mexico and appeal from the ballot to the rifle. It is too hoped that Ford is wrong and that Mexico will settle down to peaceful pursuits but it has not yet been fully determined if Obregon is a second Diaz.

Congress did a good thing when it extended the present immigration law for another period of two years. Perhaps by that time some plan can be worked out for a careful sifting of the immigrants and the undesirable kept out altogether. Just now the unemployment problem is perplexing enough without trying to handle an unlimited number of a mixed crew from Europe. There has been too much sentimentality about the immigration laws and not enough common sense. The foreigners have received much more consideration than our own people and it is now time to think of America first.

**CAUSE FOR PRIDE.**  
 The citizens of Ada can feel justly proud that the city bonds are in great demand. It shows that people elsewhere have faith in this city, faith in it now and faith in its future. Now we should all put our shoulders to the wheel and justify this faith a hundred fold. Ada ought to be a city of 50,000 inhabitants within fifteen years. Visionary? Slightly but possible. There is no city in the state with the natural resources. All we need is brain, energy, money and more faith.

Clark Hudson, staff correspondent of the Tulsa World, was evidently listening at his own key hole when he heard that several candidates for the Democratic nomination for governor were going to withdraw in favor of a dark horse.

Mayor Fisher is to be commended for his determination to clean up the alleys. A clean town means a healthy town. Everyone should give the mayor the very best co-operation and assistance. Let's make Ada as clean as the cleanest.

Here is a bit of wisdom we ran across the other day. We wish we were the author of it, but we are not. Here it is: "He that awaits upon Fortune is never sure of a dinner."

## HER BABIES STILL

## The Forum of the Press

Not an Unmixed Evil.  
 (Okmulgee Democrat)

There is a growing body of opinion in this country favoring the repeal of the primary system of nominations and urging a return to the convention methods that prevailed in an earlier day. It can not be denied that the primary system has failed to fulfill the bright promise made for it by those who fathored its adoption. It has not eliminated corruption from politics. On the contrary, it has promoted the expenditures of money on a scale never heretofore dreamed of even in the most corrupt days of party management in the past. Where will one look for a parallel to the \$200,000 and upwards expended by Newberry in Michigan? It is humanly impossible to make two campaigns of statewide scope within the amount authorized to be expended by the corrupt practices acts in force in the several states. And as a matter of fact, no attempt is made to stay within the legal limit by any candidate with an itch for office. The same is true with reference to congressional contests.

But, perhaps, one of the most vicious results of the primary system of nominations is the inevitable tendency away from historic and traditional party principles and policy. Every candidate without regard to the brand of his politics on national matters, is the maker of his own platform. The candidate who wants the office no longer stands on the declarations of principle enunciated by the leaders of either party in the state. He does not have to square his own views and future activities with well considered views of policy adopted after sound consideration and experience. The platform of the average office seeker is dictated by the prevailing public opinion of his neighborhood or political division.

If a pronouncement, in public or private, will get votes, he is for it in public or private, depending upon the policy of publicity or secrecy.

The primary is responsible in large measure, if not entirely, for failure to develop true political leadership. Both the great political parties today in state matters have ceased to stand for anything. Merely because a candidate qualified with either of the major parties two years ago does not mean much to the people today. What does he stand for on the issues that are now before the people? That is the important question. Nobody knows—not even the candidate. After election, there is no one to hold him to account. He can not be called to account before the bar of public opinion organized behind a set of party principles and made to acknowledge the faith. He is his own platform. He made and he feels that he is at liberty to break it—after election.

Platforms mean nothing to him. He is responsible to no one—but the people and their memory is short.

**Radio Movies.**  
 (Argemore)

Is the day close at hand when moving picture films will be broadcasted by wireless, enabling families to have the best movies right in the homes, on a sheet pinned to the wall?

Impossible, you say? Your ancestors said the same thing about the steam railroad, telephone, phonograph, movies, wireless and autos, when these inventions were first

predicted by clairvoyant visionaries. C. Francis Jenkins has successfully made the first step toward radio movies.

He exhibits photographs of images which he transmitted by wireless during his experiments.

This happened in the laboratory of the General Electric company, at Lynn, Mass., during the annual convention of the Society of Motion picture of some distant city, late

Thirty-two years ago, Elisha Gray invented the telautograph. This instrument reproduces handwriting and drawings at a distance, electrically, doing the transmitting.

Maybe you have seen telephone girls in big hotels use such a device, writing an order on a pad before them, which the writing simultaneously duplicated by a machine in the kitchen.

This copying telegraph apparatus was expanded in a photograph-sender in 1906 by Carbonell, the Belgian who had great success at telegraphing pictures by a system of reproducing as the tiny dots you see all over photographs in newspapers.

Telephotography is extremely complicated. But what its students have in mind has spread out among the people as a vague dream of an attachment by which you would look into a glass and see what the party was doing at the other end of the telephone wire.

As far back as 1914, Prof. A. Korp was lecturing in Vienna about the possibility of sending movies by wireless.

Did you ever see a mirage? If not, you know about them—the appearance in the sky of a perfect picture of some distant city, lake or mountain. That is one of nature's ways of broadcasting pictures.

When you watch the movement of people or objects you are seeing nature's original wireless-movie system—and it's all as mechanical as operating a camera.

The principle of radio movies exists in nature. The inventors may learn how to copy nature and send movies by wireless, requires no great stretch.

Divorce cases in Paris have declined because of the house shortage.

## HALF A CENTURY

**Oklahoman Praises Black-Draught, Having Used It "Can Safely Say for 50 Years."**

Grandfield, Okla.—One of the best known farmers of Tillman County, Mr. G. W. Tisdale, who owns and manages a wagon yard here, says:

"I have used Thorford's Black-Draught—I believe I can safely say for fifty years.

"I was born and reared in Texas, Freestone County, sixty-four years ago. I have been married forty-four years. My father used Black-Draught before I was married, and gave it to us."

"For forty-four years of my married life, it has had a place on our medicine shelf, and is the only laxative, or liver medicine, we use. We use it for torpid liver, sour stomach, headache, indigestion. . . I don't think we could get along without it, knowing what it has done for us, and the money it has saved. It is just as good and reliable today as it was when we began its use. My boys use it and they are satisfied it's the best liver medicine they have ever used."

Thorford's Black-Draught is purely vegetable, not disagreeable to take and acts in a prompt and natural way. So many thousands of persons have been benefited by the use of Thorford's Black-Draught, you should have no hesitancy in trying this valuable old well-established remedy, for most liver and stomach disorders. NC-139b.

**Card of Thanks.**  
 We desire to thank our many friends, each and every one for their kindness and assistance during the sickness and death of our dear daughter and sister. Also for the lovely flowers, and especially we thank the Masonic Lodge, Bro. Morris and the First Baptist church for their help.

## STATE'S WHEAT CROP SHOWING ABOVE NORMAL

(By the Associated Press)  
 OKLAHOMA CITY.—The Oklahoma wheat condition of 75 percent of normal, reported yesterday by the United States department of agriculture, indicates a considerable improvement in the state's wheat crop during the month, according to a bulletin issued here today by the Oklahoma co-operative crop reporting service maintained by the state board of agriculture in connection with the federal bureau of markets and crop estimates.

"It is usual for wheat to improve during April," said the bulletin, "four points being the average improvement during the last ten years, but this year, owing to the abundant rains of March and April the condition of the crop has gone up 1.75 percent of normal."

"If average conditions prevail from now until harvest the Oklahoma wheat crop should yield fully 11 bushels to the acre or a total of 31,000,000 bushels, according to the bulletin. It was explained that the condition of the crop could fall ten points by June 1 and still yield this average number of bushels inasmuch as it is usual for the condition of the crop to deteriorate during May."

"It is estimated that at least 40 percent of the wheat was sown late last fall and winter," said the bulletin. "With timely rains this might have made a fair yield, but rains were delayed so long and green bugs were so active that 24 percent of the entire seedling was abandoned. The latest sown is hardly up to average in growing condition."

The condition of hay crops in the state is several points above the average this year, according to the bulletin. The continued rains stimulated the growth of alfalfa and cutting the first crop has already begun.

Plowing is slow on account of rains, the bulletin said, only 80 percent being completed by May 1. Spring planting was 66 percent completed on the same date.

Rye was declared 80 percent of normal on May 1; hay, 94 percent and pastures, 90 percent.

## MUNSING WEAR

## That Well Dressed Appearance

Women know that outergarments fit better if underthings fit the figure without bunching.

Munsingwear is the ideal undergarment for women because it fits and covers the form perfectly.

That's one of many reasons why millions of discriminating women prefer and wear Munsingwear garments.

Munsingwear is the proper foundation for Stylish clothes. It's made nature's way and follows the form snugly yet permitting freedom of action without loss of fit.

The garments are soft, pliable, pleasing to the touch and do not irritate the skin.

The fine quality knit or woven into each Munsing garment insures unusual durability.

Munsingwear is a wonder in the wash as well as wear. Nothing comes out in the wash but the dirt.

Everything considered Munsingwear is the most popular undergarment with women who want comfort, perfection of fit, washability, serviceability, at a reasonable first cost.

Our store is headquarters for Women's Munsingwear. It is made in every desired style and size and a large variety of fabrics.

We have a wide assortment for you to select from.

Just ask for Munsingwear and you are sure of satisfaction and perfection in underwear.

### BACCALAUREATE PROGRAM

Sunday Morning, May 14th  
Nineteen Hundred Twenty-Two  
Eleven O'clock

Processional — "Priest's March" — Mendelssohn  
College Orchestra  
Doxology — Congregation Standing  
Invocation — Rev. C. C. Morris  
Hymn — How Firm a Foundation

How firm a foundation, ye saints of the Lord,  
Is laid for your faith in His excellent word!  
What more can He say, than to you He hath said,  
To you, who for refuge to Jesus have fled?  
To you, who for refuge to Jesus have fled?

Fear not, I am with thee, Oh, be not dismayed,  
For I am thy God, I will still give thee aid;  
I'll strengthen thee, help thee, and cause thee to stand,  
Upheld by My gracious omnipotent hand,  
Upheld by My gracious omnipotent hand.

When through the dark waters I call thee to go,  
The rivers of sorrow shall not overflow,  
For I will be with thee, thy trials to bless,  
And sanctify to thee thy deepest distress,  
And sanctify to thee thy deepest distress.

The soul that on Jesus hath leaned for repose  
I will not, I will not desert to his foes;  
That soul, tho' all hell should endeavor to shake,  
I'll never, no never, no never forsake,  
I'll never, no never, no never forsake. Amen.

Scripture Lesson and Prayer — Rev. J. H. Ball  
Song — "Lift Thine Eyes" from Elijah — Mendelssohn  
Treble Clef Club

Announcements — Pres. A. Linscheid  
Song — "Holy Art Thou" — Handel-Kingsmill  
College Male Chorus

Sermon — Dr. E. D. Salkeld  
Pastor, First Christian Church, Oklahoma City

Solo — "Welcome Home" — Johnson  
Albert J. Hacker

Benediction — Rev. E. O. Whitwell  
Recessional — "Tannhauser March" — Wagner  
College Orchestra

SOUTHERN ICE AND UTILITIES CO.

## What It Costs the Ice Dealer to be READY

READINESS to serve is a very big item in the cost of ice delivery. It involves filling ice houses to take care of maximum need in event of a hot summer or providing capacity to make enough ice. If the summer turns out cool the preparation is wasted.

Then the ice dealer must be prepared to deliver ice the year 'round. More and more of his customers take some ice in winter. He keeps his wagons going to deliver it as needed. That is heavy expense. The tonnage is too light to pay for his overhead; so in winter the ice dealer always loses money.

In the heat of summer it takes a lot of wagons and drivers to take care of such demand. When people need ice, they need it immediately. Prompt service is expensive.

The making or harvesting of ice is not the main expense — its cost is a fraction of the total price charged the consumer. Delivering ice and being ready to deliver it as needed often eats up one-half of every dollar you pay to the ice dealer.

This emblem your protection

It is the official badge of honor awarded to members of the National Association of Ice Industries who live up to its high standards of service to the public and the pledge recognized of them to give you

Pure Ice — Careful Weighing — Good Service

The National Association of Ice Industries has organized to improve ice delivery, to extend the uses of ice, to inform the public of the proper use of ice, to improve the home, to save space and energy, to improve the food and to protect the health. The home is the best place to use ice. The ice dealer is the best person to help you.

Grown in the open, strong and healthy. Thousands now ready, large bell or bull nose, pimiento, and all hot kinds. See me 412 West Tenth, or Rains Grocery. B. F. Stegall. 5-12-3td

The impression has gone out that the city will stand the expense of having trash and refuse removed from alleys, officials said today. This is not the case, they said, as the city only provides certain responsible men for the work, and those having the work done must pay for the services rendered them. This has always been the plan used.

Skilled repair work on all makes of batteries at reasonable prices. Kit Carson, Phone 2, 225 East Main. 1-2-1mo

Tomato Plants.  
Earliest of All, June Pink, Panderosa, Success, Dwarf Stone, Beef Steak, and other kinds. See me 412 West Tenth or Rains Grocery. B. F. Stegall. 5-12-3td

Reports from many sections of the city are to the effect that chicken thieves are active. No arrests have been made. One instance has been reported where meat was taken from a storage house at a residence in the city. Another report states that a man was seen escaping from a poultry house with two chickens, but the proprietor was unable to identify him. Officers are expected to begin action in this line immediately.

### IN THE OIL FIELDS

E. H. House of Lawton, an oil well supply man, was in the city today shaking hands with the oil men.

Ed Gillette has returned from a trip to Kansas where he blocked the acreage for a well. The sand in that field, Ed says, is found around a thousand feet and the wells generally are good pay.

While in Ada Friday Forde Harrison of Allen state that the Montrose well in section 20, near Allen has been plugged at the 1,300 foot sand and will be shot in a few days. It is stated that the well went nearly 1,000 feet deeper than this, but found no sand as good as the one encountered at 1,300 feet, hence, the attempt to save it at this sand. Mr. Harrison said that two or three other locations have been made and will be drilled sometime soon.

A New York investment securities corporation has undertaken to float in this country a loan of a billion marks for the city of Warsaw.

## PAWNEE OFFICER BADLY WOUNDED

Occupants of Car Believed Stolen Open Fire When Hailed by Policeman.

(By the Associated Press)

STILLWATER, May 13. — Ed Eshelman, night policeman at Pawnee, was brought to Stillwater this morning for an operation to remove a bullet which lodged in his abdomen when he was shot at 1:30 a. m., at Pawnee while attempting to arrest a man believed to have been an automobile thief.

Eshelman had received word of a car being stolen at Ponca City and was asked to be on the lookout. Three men were in the car when the attempt to arrest was made. They opened fire and later abandoned the car.

Chief of Police Wilkerson of Pawnee later arrested two men in the railroad yards and brought them to Stillwater for possible identification by Eshelman as being connected with the shooting.

Open Air Concert to Be Rendered at Park By Alamo Shows Band

There will be an open air sacred concert at the Glenwood Park Sunday afternoon by the military band accompanying the Greater Alamo Shows.

The shows are here under the auspices of the American Legion. The concert is being given for the benefit of the public and will be free. All are invited to come out and hear the music.

The advance guard of the shows began arriving today and it was stated by advance agents today that by Monday afternoon the shows would have established themselves. Favorable weather was promised for all next week.

## ATHLETICS GROW AT ADA COLLEGE

Track Team to State Meet; Other Teams Are Much Better

Within a week East Central college will have closed one of its most successful years from an athletic standpoint. After several years of decline on the athletic calendar of the state, a decline which placed the college in place where it has been looked upon as an inferior by other state colleges in athletic meets the school has again set about to build itself on a strong athletic foundation.

In keeping with this new program, the school is sending for the first time in its long history, a track and field team to a state conference meet. Five men will be in Oklahoma City Friday of next week to take part in the meet. These men are now working out and will be picked from the squad which took second place in the quadrangular meet here a week ago.

Lane, in pole vault and high jump; Stephens in 100-dash, 220-dash and 440-dash; Martin in high and low hurdles and 100-dash; Neely in 220-dash, 440-dash, 880-run and low hurdles; and Julius and Delos Weston in mile and 2-mile races, will constitute the team to represent this college. Other colleges competing will be Tulsa University, Oklahoma Baptist University, Southeastern Teachers, Oklahoma City college, Stillwater A. and M. college, Weatherford Teachers, Tahlequah Teachers, Kingfisher college, Edmond Teachers, Alva Teachers and Phillips University.

**Standing Records.**  
Records in the Oklahoma Collegiate conference are as follows:  
100-yard dash, Noble of Central '08, Gallagher of A. and M., '08. Time 9 4-5 seconds.

220-yard dash, Gallagher of A. and M., '08. Time 21 3-5 seconds.  
440-yard dash, Noble of Central '08. Time 50 4-5 seconds.

880-yard run, Johnson of A. and M., '21. Time 2 minutes.  
1 mile run, Griffith of O. U., '13. Time 4 minutes, 26 1-4 seconds.

Two-mile run, McClean of Central. Time 9 minutes, 47 2-5 seconds.  
High hurdles, Jacobs of O. U., '15. Time 15 2-5 seconds.

Low hurdles, Gallagher of A. and M., '08. Time 24 3-5 seconds.  
Broad jump, Anderson of Southwestern, '18. 22 feet 3 1-2 inches.  
High jump, Jacobs of O. U., '14. 5 feet, 10 3-4 inches.

Pole vault, Hueston of A. and M., '14. 11 feet, 6 1-2 inches.  
Shot put, Sanderfur of Northwest, '14. 41 feet, 10 inches.  
Discus throw, Graham of A. and M., '21. 135.65 feet.

Relay, Oklahoma University, '13. Time 3 minutes, 27 seconds.  
The history of East Central's comeback in athletics is short, but it covers a lot of territory. At the beginning of the season, Coach Thompson, who was appointed to the place of athletic director, set about building a football team. He had such a late start that only a fair team could be pieced together, which disbanded before the end of the season, after playing several games.

On changing his football team, he turned his attention to basketball, winning many games in this class for the first time. He not only took more collegiate games than any previous team, but also won a cup in the city basketball league.

And to wind up a good season he put out the best basketball team in the state, thereby winning the state collegiate basketball championship during his first year. The same team will be playing next year. The team for the first time, and plans now are to the effect that a team will go each year in the future.

## UNIVERSITY WILL START CAMPAIGN FOR STADIUM FUND

NORMAN, May 15.—(Special)—Monday, May 15, will open official campaign for the \$500,000 athletic stadium for the University of Oklahoma when 125 leading students of the Soonerland and a faculty committee will canvass the university for subscriptions toward the building fund.

Each student will be requested to sign up to give \$100 in four payments over a period of four years while the faculty will be asked from \$100 up. This campaign is expected to bring in more than \$150,000 in pledges for the stadium and show the state the extent of the need for the athletic plant at the university.

Robert Bell, McAlester, president of the student council, will head the committee for the student canvass while Florence Monnet will have charge of the co-ed committee. The drive at the university will be the extent of the campaign during the present school year but Ben G. Owen, director of athletics who heads the stadium move, will spend the summer perfecting his state organization preparatory to the state wide drive he intends to open next fall.

## HERE'S UNUSUAL VIEW OF BROWNS' FIRST BASEMAN

George Sisler watching the opposing pitcher warm up.

George Sisler, super-player and brilliant first baseman of the Browns is playing at his usual pace this year. Even Ken Williams' home run hitting hasn't crowded the former Michigan U. star out of the spotlight.

### COOPER'S RECORD

- 1.—Thomas - Cooper, K. O. for Cooper.
  - 2.—Fox-Cooper, K. O. for Cooper.
  - 3.—Heaglebeck - Cooper, decision for Cooper.
  - 4.—Horseman-Cooper, K. O. for Cooper.
  - 5.—Cooper-Fox, decision for Fox.
  - 6.—Isaacs-Cooper, K. O. for Cooper.
- This will be Cooper's seventh fight. Earl Lane of Oklahoma City, who is to fight him on May 25, has taken part in 25 bouts. He will no doubt be the toughest and most experienced man Cooper has ever met.

## School Exhibit at Willard Is Seen By Interested Persons

The exhibition of work done by pupils of the Willard school was well attended yesterday and was given approval by the parents. From the fanciful colorings and free hand cuttings of the first grade pupils on through to the solving of intricate problems and explanation of the process of civil government in the eighth grade room, the year's work was on exhibit.

A fine meeting of the parent-teachers club of the school was held directly afterwards and a record attendance by fathers, mothers and friends, agree unanimously to continue the club working in the school. Much good has been accomplished and can be accomplished, it was pointed out in the promotion of stronger co-operation between parents and teachers for the benefit of the child, and is worth the interest of all patrons of the school.

It was voted at the meeting to accept one of the flower beds at the city park and keep it during the summer. A vote of appreciation was handed to the teachers for their help and expression of regret that Misses Mary Esther Chisholm, Neva Kennon and Mrs. Lillie Wingo will not be with the school next year.

New officers elected were Mrs. J. B. Hill, president; Mrs. S. H. Mount vice-president; Mrs. Guy Anderson, recording secretary; Mrs. Cora McKee, corresponding secretary; Mrs. Claude Griffith, treasurer. Appreciation for Mrs. Mount's, the retiring president, untiring efforts during the past two years in school work, was expressed by the meeting. New officers were installed.

**CHICHESTER'S PILLS**  
Cures Malaria, Chills and Fever, Dengue or Bilious Fever. It kills the germs.

By Norman E. Brown.

### CORNELL'S HAPPY.

The University students and grads are watching the progress of the track and rowing squads this spring without the fear that has hung over them in past seasons that their teams would be successful in these sports only to be buried in the mire of defeat in football.

For Gilmour Dobie, once known as the unbeaten mentor of the west, in his two years at Cornell has raised that institution's football team to a par with its other athletic departments. The coming season looks rosy.

Dobie took charge after Al Sharpe and Speedy Rush had failed, over a five-year period, to produce a strong eleven. "The Pessimist," as he is affectionately known, went to Cornell from Annapolis where he had coached for two years after being brought from the University of Washington.

His first season at Annapolis the Navy team lost one game—to the Great Naval Training Station service team, the Great Lakes team winning on a fumble near the end of the game. The following year the middles lost one game but beat the army for the first time in several seasons.

On the Pacific Coast Dobie's teams were unbeaten over a stretch of twelve seasons.

## Sport Jabs

Ada has established a precedent in curing baseball pitchers who suddenly go wrong. Coach Thompson of the local college will probably advise sweet talk after viewing the effects it had on his young southpaw hurler Thursday, especially after milk is sucked through a rubber tube.

A tale is being told of the high school lad who came out for spring football practice and after the first day decided to wait until next fall before coming out again—he said he wanted to rest until that time. Coach Cox must be working the boys hard to require that much rest.

Since Jack Dempsey's coin is running short, many so-called challengers are beginning to believe he will fight again and are hushing their cries for a match.

From the way many of the big league clubs are trading players, selling and making efforts to secure better, it is beginning to be evident that some of the "promising sensations" at the opening of the season, are not so promising.

A worm will turn, so they say. It has been the case in organized baseball. There is at least a dozen instances where players sold by their home club, have handed a defeat to the aforesaid club in latter games.

## Dempsey Feels Sure He'll Meet Georges For Second Battle

PARIS, May 13.—Jack Dempsey told the Associated Press today it was almost certain that he would meet Georges Carpentier again, in London or Paris, later this year. Francois Descamps, manager for Carpentier, defeated Ted Lewis in London May 11, and provided the purse was satisfactory.

The posting of forfeits and other details, Dempsey added, are being discussed in London by Jack Kerns, Dempsey's manager, and Carpentier.

Definite arrangements, however, are awaiting the result of the Lewis-Carpentier fight. Dempsey asserted it was immaterial whether he met Willard before or after his second go with Carpentier.

"I am absolutely willing to meet Willard, or anyone else provided they mean business," said Dempsey. "All I want is a month's training. I should like to stay in Europe a little longer, but I must return to the United States and fulfill a theatrical engagement in the west, and a motion picture contract in New York. I cannot afford to default either of these. I shall leave Paris for London Tuesday, and shall probably sail for New York May 13."

## ON AUCTION BLOCK LAST WINTER, HE IS NO-HIT HERO

Jess Barnes.

Last winter John McGraw decided that he had no place in his championship lineup. Jawn offered Barnes to the highest bidder—and no high bids were forthcoming. The other days Jess took a fling at the Phillies and let them down with a hit. One pass spoiled his chances of joining the six no-man-reach-first heroes. It was the plodding Cy Williams who drew that pass. Giants won, 6 to 0.

### HOW THEY BAT

Name	G	AB	H	PCT.
Waner	12	42	19	.453
Williams	8	10	8	.421
Tinkle	12	42	16	.380
Burkhardt	12	36	13	.360
Miller	12	42	13	.305
Evans	5	10	3	.300
Morrison	8	24	7	.290
Montgomery	12	45	13	.288
Beavers	5	11	3	.277
West	5	8	2	.250
Vernon	5	12	3	.250
Culver	5	9	2	.222
Clary	6	20	4	.200

Coach Thompson, with the strongest pitching staff of any college in the state, and the heaviest hitting team, won the state collegiate championship this season. Waner, southpaw hurler, starred at hitting, leading the list by a good margin. Due to the poor records kept at the beginning of the season, no fielding average has yet been compiled.

## Cooper Worked Out Before Large Crowd At The Legion Hall

Arch Cooper had a good workout Friday afternoon at his training quarters before a large crowd of fans. He is now able to go more than ten hard rounds and will be in his best condition for the next bout. Cooper has been improving during the past few months by continual training.

Due to a large amount of working out, he is also improving his ability and science. It is expected that he will not disappoint fans in the fight here on the night of May 25 with Earl Lane of Oklahoma City.

Lane is said to be a good fighter. Cooper not only expects to win the fight, but also wants to get more experience. After a few more bouts at home, if he takes them with success, many fans are favorable to a plan of putting him with better fighters in order that he may start a climb to higher honors in ring history.

## ASSOCIATION TO COMPLETE PLANS FOR BALL LEAGUE

A meeting has been called for next Tuesday night by the Ada Athletic Association of all its members who are interested in the city baseball league. The league, including four teams, will be finally and completely organized at this meeting.

Ralph Waner, manager of the association, stated today that after he had the managers of the teams and the players at the conference next week, he would immediately announce the season's schedule. Proposals to be taken up will include the numbers of games, condition and other important points.

Merchants of the city have purchased two sets of uniforms one for the "Midgets," and one for the "City Clerks." The American Legion and Teachers College will produce the other two teams for the league.

Bermuda has been considered as formidable as Gibraltar.

## LEAGUERS COME FOR TWO GAMES

Chickasha Oklahoma League Team Here to Play Green's Clan

After playing Konawa town club Sunday, Manager Green of the Ada Independents will place his nine in the field against the Chickasha League club here on Tuesday and Wednesday of next week. These games promise to be as good as any during the entire season. Konawa will be here tomorrow, this team having already defeated one Ada aggregation earlier in the season.

Chickasha, a member of the Oklahoma State League to which the Ada team was invited to become a member, is out for practice to get ready for the opening of the Oklahoma State League season, which was delayed on account of delay in getting the league organized.

Both games will be called at four o'clock, which Mr. Green believes will allow fans time to get off from work to see the games. He will be using his old line-up, with Waner doing the leading mound work. He did not say what other hurler he would have for these games. This is the second time that a league team has played on Ada soil, but only the old timers remember the first leaguers to come to Ada—in the days when the town did not have a very good team.

## Armenians Skeptical of Value of Turkish Promises of Safety

MERSINA, Turkey.—The native population which fled to the mountains during the French occupation of the province of Cilicia in Southern Anatolia, is returning in great numbers to their homes.

The shops of Armenians are still sealed. The authorities issued a proclamation to the exiles calling upon them to return to their homes stating that Turkish laws were equal to all and that law abiding citizens could rely on the government's support. The proclamation had no effect, since 100,000 of Armenians are still on the road of exile without manifesting the least desire to return to their homelands.

## CHANGE OF LIFE WOMAN'S TRIAL

Proof That Lydia E. Pinkham's Vegetable Compound is of Great Help at This Period

Metropolis, Illinois.—"I have taken Lydia E. Pinkham's Vegetable Compound and it is all it claims to be and has benefited me wonderfully. I had been sick for eight months with a trouble which confined me to my bed and was only able to be up part of the time, when I was advised by a friend, Mrs. Smith, to try Lydia E. Pinkham's Vegetable Compound and Liver Pills. I was so much benefited by the use of these medicines that I was able to be up and about in two weeks. I was at the Change of Life when I began taking the medicines and passed over that time without any trouble. Now I am hale and hearty, do all my housework, washing, ironing, scrubbing and cooking, all there is to do about a house, and can walk two or three miles without getting too tired. I know of several of my neighbors who have been helped by your medicines."

Mrs. EMMA CULVER, 706 E. 7th St., Metropolis, Illinois.

Depend upon Lydia E. Pinkham's Vegetable Compound, Nervousness, irritability, heat flashes, headache and dizziness, are relieved by this splendid medicine.

A. & M. STUDENT HELD FOR TRIAL FOR MURDER

(By the Associated Press)

STILLWATER, May 13.—Earl E. Gordon of Miami, Okla., a student at the Oklahoma A. and M. college, was held for trial in district court in connection with the recent killing of Beckham Cobb, another student, after his preliminary hearing. No bail was allowed.

Brown Moore, attorney for Gordon, announced after the hearing that he would seek Gordon's release on bail on a writ of habeas corpus.

The hearing was without incident, and no new feature was developed through testimony except the fact that Cobb cried just before shooting: "Oh, buddy don't shoot!" Four witnesses testified as to these alleged words.

SENATE MAY INVESTIGATE RAISE IN GASOLINE PRICE

WASHINGTON, May 13.—Senate investigation of the recent increase in the price of gasoline is proposed in a resolution introduced today by Senator McKellar, Democrat, Tenn.

Prompt action on it by the senate was asked, but it went over pending determination of whether a similar resolution is pending.

FT. WORTH, Tex., May 13.—L. T. Martin, merchant, was shot to death this morning at 9 o'clock as he was walking along East Front street. The shot was fired from the second story of a nearby building.

Martin moved here ten days ago from Oak Cliff, buying a dry goods store.

Mrs. W. C. Duncan left today for a visit with relatives in Bonham, Texas.

## MINERS WILL MEET MONDAY

Many Important Matters To Be Considered at Muskogee Convention Meet.

(By the Associated Press)

MUSKOGEE, May 13.—Not since the stormy days that followed the turmoil growing out of the Prairie Creek rioting in Hartford, Ark., valley, in 1914, has district 21 of the United Mine Workers of Oklahoma, Arkansas and Texas face such an important convention as was scheduled to open here Monday.

With the convention called to permit any business that is calculated to be of benefit to the district organization, the meeting has been characterized as a "mine run" convention because of its wide latitude.

Matters dealing with the present national coal strike and internal dissension of the district are expected to furnish the outstanding features of the gathering that will represent 13,000 union coal miners in three states. On the same day, the convention goes into session, the \$5 a week strike benefit becomes payable. It is pointed out by district officials that in view of the promise of the present strike being of long duration, the so-called defense fund from which strike benefits are to be paid, will soon become exhausted.

The convention will be asked to vote the proposition to suspend the payment of strike benefits until a more acute time or to suspend payment entirely. When the defense fund is exhausted several hundred miners of Texas who were locked out long before the national strike began will lose benefits of the district organization which have been paid then in addition to a special allowance for sustenance of their families.

As all of the miners are now on strike no dues are being paid and there is remote possibility of borrowing funds from other districts, according to officials.

L. T. MARTIN KILLED ON STREETS OF FORT WORTH

FT. WORTH, Tex., May 13.—L. T. Martin, merchant, was shot to death this morning at 9 o'clock as he was walking along East Front street. The shot was fired from the second story of a nearby building.

Martin moved here ten days ago from Oak Cliff, buying a dry goods store.

Mrs. W. C. Duncan left today for a visit with relatives in Bonham, Texas.

## Fair Libel Law Is Demanded By Oklahoma Editors

PONCA CITY, May 13.—By an unanimous vote of the Oklahoma Press Association, the 1923 press convention was awarded to Duncan after Tulsa, the only other city actively in the race, withdrew before nomination.

Elmer Jesse of the Mangum Star was elected president to succeed J. L. Newland of Frederick.

Following the report of the resolutions committee, the association went on record as opposing any change in the present advertising agency commission system.

Previously expressed opinion that the present Oklahoma libel law "is grossly unjust," was reaffirmed in another resolution and the demand was made upon the state legislature for a law "that is fair alike to the public and publishers."

Fast Train Is Ditched When Auto Is Hit; 3 Dead, 25 Injured

Fast Train Ditched.

BATAVIA, N. Y., May 13.—Two persons killed when the Black Diamond Express on the Lehigh Valley railroad, struck an automobile at LeRoy. The victims were Thomas R. Borden of LeRoy, driver of the

car, and E. E. Croser of Niagara Falls, a railroad yardman.

Twenty-five injured were taken from the wreckage of three cars which overturned. Three were believed fatally hurt.

The train was going about 70 miles an hour when it hit the automobile. The derailed passenger cars plunged over a 40-foot embankment. A pullman car also left the rails but did not go over the embankment. L. E. Clat, a traveling man of Portland, Maine, died while being taken to a hospital here, making the third fatality as a result of the wreck.

## Farmers' Column

By Byron Norrell

**Rose Tea for Bride.**  
Attention was diverted from sweet girl graduates and May Queens, who have been vying with each other for first place the past fortnight, long enough to pay tribute to a recent bride Thursday afternoon when Mrs. H. W. Wells entertained at her home, on Eighteenth street, with a rose tea in honor of Mrs. T. P. Smith, niece of Mrs. I. M. King of this city.

Guests were greeted at the door by Mrs. Harmon Ebey and presented to the hostess, the bride, and Mrs. Harry Scheinberg and Mrs. Allie Bryan who received with Mrs. Wells, by Mrs. J. W. Bolan.

Mrs. Smith, a beautiful blond of demure type, was especially charming on this occasion in a bouffant frock of jade green taffeta. Rose shade lights and May baskets of every size and shape laden with the season's choicest roses furnished the general scheme of decoration throughout the house. Over one hundred and twenty-five callers registered in the bride's book handpainted and fashioned in the shape of a May basket with a pink satin bow on handle, and presided over by Mesdames C. J. Skirvin and Fred Orr.

Mrs. Ed Haraway and Mrs. R. W. Simpson poured tea while Misses Frances Case, Nora Abney, Bess Knighten and Alice McLachlan served from the table which had for its center decoration a handpainted chignon centerpiece, a tall cut glass basket filled with roses and rose candles in crystal candlesticks.

Tiny baskets bearing the names of Mrs. T. P. Smith and Mrs. Ed McKinney, who was prevented from sharing honors with Mrs. Smith because of illness, were given the guests by Mrs. J. H. Patton.

Others who assisted in receiving and entertaining were Mesdames Hunter, Lasater, W. H. Ebey, Bowman, John McKinley, M. C. Taylor, and Miss Dorothy Duncan.

**Sophomores to Byng.**  
It was a joyous bunch of high school youngsters who left in trucks this morning for Byng where they planned to spend the day picnicking and generally enjoying themselves on their last outing as "sophomores". Members of the high school faculty accompanied the students. Leaving at 9 o'clock the students plan to return to the city late this afternoon. Lunch was taken which was spread at noon. The afternoon was to be spent in fishing, kodaking and scouting around over the woods on Big Sandy creek.

**Dignified Seniors Forget.**  
Dignity of seniors was thrown aside Friday and the many members of the senior class of the Teachers College betook themselves to the city lake to spend their annual senior day the best and most enjoyable manner possible.

The entire day was spent at the lake, while the program included boating, swimming, kodaking and fishing. College faculty members who were lucky enough to be selected as sponsors for the crowd joined in the fun. All who were included at roll call at lunch time expressed themselves as having enjoyed the day. The class went to the city lake, when plans to go to Sulphur were abandoned.

The first machine gun was invented by M. du Perron, of Lyons, France. It was rejected by Louis XVI as being too murderous.

Bangkok, Siam, uses canals principally for traffic.

A dwelling 47 miles from Jordan, Mont., was moved to Jordan in 10 days and across several deep coulees without cracking a window pane or damaging the plaster.

## CUTICURA HEALS ECZEMA ON FACE

And Chest. In Pimples, Itched and Burned. Face Disfigured.

"Eczema broke out on my face and chest. It first started in pimples and itched and burned so that I could not sleep at times. My face was so badly disfigured that I was ashamed to meet my friends. The trouble lasted about two years. I sent for a free sample of Cuticura Soap and Ointment which helped me so I purchased more, and after using three boxes of Cuticura Ointment, together with the Cuticura Soap, I was healed." (Signed) Miss Josephine Liles, R. 2, Box 69, Morven, N. C., July 25, 1921.

Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health often when all else fails.

Sample Each Free by Mail. Address: "Cuticura Laboratories, Dept. T, Malden, Mass." Send money where. Soap 25c. Ointment 25c and 50c. Talcum 50c. Cuticura Soap shaves without soap.

**Meeting of Frisco Club.**  
The Frisco club held a rousing meeting Friday afternoon with an attendance of 39 boys and girls. About half the boys of the club were at work, Friday being the first day of sunshine in so long that the fields needed attention.

Leonard Moore, the president, presided over the meeting. Several of the boys on the program being absent on account of work, the program could not be fully carried out, but the president carried out his assignment which was to discuss methods of raising corn. His talk was very comprehensive and proved that he is fully informed on the best methods. He stated that in spite of the unfavorable weather he has made a good start with his corn crop this year, having plowed, harrowed and hoed it.

Each club member made a report on the progress he or she was making in the particular lines selected and the methods used. The girls of the sewing club brought their tea towels and handkerchiefs which they had embroidered under the direction of Mrs. Duvall. The girls of the poultry club reported excellent progress and the canning club girls reported that their gardens were doing as well as could be expected. Mrs. Duvall gave them some instructions about the first canning which will be beets. The cooking club girls had been busy and made good reports. The boys had been held back by the weather but their reports indicated that they had done all they could.

J. B. Hill then presented the club with its charter from the state. This will be framed and hung in the school house. In course of a talk on this work he stated that he expected a strict account kept of all expenses in making their crops or raising their livestock as this is a most important matter with every farmer. He also advised them on handling sprays and dusts for insect pests.

Mrs. Norrell made a short talk on beautifying the school grounds with trees and shrubs and advised them to make a start next fall. She suggested that during the summer the boys cut the posts to fence the school ground and that the girls' cooking club might earn part of the money necessary to buy the trees. Then they could get native trees from the woods and in a few years have a beautiful campus. She also told the girls how to prepare baskets for their flower exhibits at the township and county fairs.

After the meeting adjourned the members gathered in a group in front of the school building and Mr. Hill took a kodak view of the crowd. Two girls of the cooking club had put their lessons to good account by making a quantity of delicious fudge which was passed around.

## Some Pretty Yards.

At the meeting of the Pecan Grove Canning and Sewing society last week at which we discussed trees, shrubs and flowers both inside and out of the rural home we found that the greatest difficulty would be keeping the chickens out unless fenced with fine meshed wire and then some doubted the success of it. But on my trip with Mrs. Duvall to visit the Frisco boys and girls club Friday I found that it had been done quite successfully and the arrangement very artistic indeed by Mrs. Hisaw near the Pleasant Hill school building. She is raising ducks, turkeys and chickens—the whole face of the earth seemed covered with little chickens and ducklings and had a three wire fence around the yard.

Her flower gardens on either side of the walk from the gate to the house fenced with three-foot one-inch mesh wire, was full of the dear old fashioned flowers—pinks, four o'clocks Bouncing Betty, roses, chrysantheums, zinnias, lilacs, poppies, petunias, and others—all growing and well kept, in fact the chickens looked proud of the landscape and wanted to say: "Behold! It can be done."

I saw many yards with beautiful roses, while passing through Frisco and on the road going down. Mrs. Auten near Pecan Grove has a beautiful collection of roses blooming and many many chickens. It's possible she has some scratched up but there is still enough left to make a wonderful rose garden. So to those who have no mesh wire fences I will quote them a paragraph from an article in the May issue of the American Magazine: "Why I have got so far so good," by Mrs. Nina Wilcox Puitman. "Now I got a theory on life, and the theory is that anything a person really wants, they will get it. Failure is nothing in the world but not wanting hard enough to try hard enough and not trying hard enough to try intelligently enough, which is a hot line if you can get it." Mrs. Byron Norrell.

**Card of Thanks.**  
We wish to express our most sincere thanks to our many friends who were with us and helped us during the recent illness and death of our daughter, F. M. Hale.—J. R. Hale, Mrs. Anna Cagle, Francis Hale, Mrs. Ella Boyd.

## FRANCIS SCHOOL ENDS SUCCESSFUL TERM ON FRIDAY

FRANCIS, May 13.—(Special)—Francis high school closed Friday one of the most successful school years in history with eleven graduating from high school, and seventeen from the eighth grade.

Francis took first in the Pontotoc county field and track meet in the A class and second in the C class. The girls basketball team won second in the district and the debating team won second in the district, winning from Ada high school early in the year.

Eight of the class will enter the East Central State Teacher's College next fall to begin their college work. Mill Nellie Kearns a member of the graduating class finished her work at the end of the first semester and entered East Central.

R. R. Roberson, teacher of the East Central State Teachers college, delivered the class address. Paris Willingham gave the valedictory address.

Those graduating from high school are: Faris Willingham, Felix Lance, Nellie Kearns, Helen Baker, Daisy Burns, Paul Miller, Lloyd Rose, Wood Rose, Joe Murphy, Velma Johnson, Norman Hilderbrand.

Those graduating from the eighth grade are: Herman Huckins, Irene Butler, Laura Durham, Dewey Sampson, Mable Esque, Melvin Wilcoxson, Ivan Salter, Jewel Wilcoxson, Claud Sharp, Cecil Stevenson, Nolan Elizabeth Gearnes, Grance Lane.

## Presbyterian Pastor Installed.

At a called meeting of Ardmore Presbytery Wednesday evening Rev. E. O. Whitwell was duly installed as pastor of the First Presbyterian church of Ada, and formally entered upon his duties.

The sermon on this occasion was preached by Rev. Thomas Carey of Tishomingo, pastor of the Ada church for several years. Rev. D. L. Walker of Roff delivered the charge to the pastor and Rev. M. B. Molloy of Ada, former pastor, delivered the charge to the congregation.

At the conclusion of the service those present enjoyed a social hour and the ladies of the church served refreshments.

Solo.—Mrs. Ballard.

Superintendent Publicity.

## First Baptist Church.

Several of our business men have asked the pastor if he could not have the First Baptist Sunday school launch a campaign for increased Sunday school attendance some time during July or August when the earth was parched. Some of them have even gone so far as to suggest that they would gladly pay all the advertising bill. We will take their suggestion under advisement and may perhaps accept it. If past experiences is to be taken as a criterion, it is the best way in the world to get a good rain. Thus far every time we have launched such a campaign it has caused the very heavens to weep profusely. But we are not complaining. It is not our matter. We cannot control the rain and I am glad man has nothing to do with it because if he did somebody would have it on a meter. Anyway we were delighted at the

## DR. SALKELD TO DELIVER SERMON

Baccalaureate Exercises To Be Held Sunday Morning at College Auditorium.

An event of vital importance to the largest number of students to receive diplomas from East Central college in history, will be held in the college auditorium Sunday morning beginning at 11 o'clock when the baccalaureate sermon is preached by Dr. E. D. Salkeld, pastor of the First Christian church of Oklahoma City.

An interesting and appropriate program has been prepared in addition to the sermon. Invitations are extended to friends and patrons of the school, and citizens of Ada to attend the exercises tomorrow morning.

It was said today that the program would be in keeping with the advance of the class, larger and better than ever before.

The program will be opened with the Processional by the college orchestra. Rev. C. C. Morris, pastor of the First Baptist church will give the invocation. Rev. J. H. Ball, pastor of the First Methodist church, will conduct the scripture lesson and lead in prayer. One number by the Treble Clef club, one by the college male chorus and a solo by Albert J. Hacker will also be included on the program. Dr. A. Linscheid, president of the school will make the announcements. Rev. E. O. Whitwell will give the benediction. Recessional, played by the college orchestra, will conclude the program.

There are seventy seniors who are receiving diplomas this year, and several others who will graduate at the close of the summer term. Dr. Linscheid stated today that Dr. E. D. Salkeld was a well known minister of the state and those who hear him tomorrow will be well repaid for their time. The school is very glad to have him here, he declared.

Next week will be a busy one for the seniors. Commencement exercises will be held on Wednesday. Several other matters of interest are to be taken up also. Those working on the Pesagi, state that on account of so much work, the book will be delayed in delivery to purchasers.

## Morse Here Today.

R. J. Morse, general manager for all the plants of the Cement Securities company of Denver, was in the city today in the interest of the Oklahoma Portland Cement company.

With General Manager M. O. Matthews he was going over the property. He will be in Ada until Tuesday.

Mr. Morse, who has been over much of the middle section of the country is of the opinion that unless the coal strike is settled before long, industry will begin to suffer. As it is now, many of the manufacturing plants are running low on coal.
